**DEVELOPMENTS HAVE RESTORED CONFIDENCE IN MERGER STOCK**

Tonopah Merger and the White Caps company of Manhattan are discussed favorably in the New York Mining Age of the last issue. The discussion is made by the investor in the columns devoted for that purpose alone. The two articles follow:

**Tonopah Merger**

It seems odd how soon or later the causes leading up to the unexpected declines in mining shares are explicated, and even though these explanations are tardy that at least furnish a degree of satisfaction in knowing what it was all about. The news, for instance, which has come to hand explaining the drop witnessed about six weeks ago in Tonopah Merger, when the stock sold down violently from \$1 3/4 to 85 cents per share, confirms in a measure the suspicions of many that something happened at the property at that time which was being kept under cover. It seems now that as work continued in the Merger vein on the 280-foot level a fault was encountered which severed the vein and which at first blushed presented a serious position for the mine management to solve, as, ordinarily, the encountering of an underground condition of this kind means a great deal of trouble ahead in order to find the continuation of the vein. Mining luck, however, was such that with further drifting in the direction of the vein opened up on the ore body again beyond the fault and what would have ordinarily proven to be a serious underground change was,

luckily, limited to a merely temporary discouraging factor. At the time this trouble occurred, the only reliable information which could be obtained in regard to it was a number of veiled statements that the values had suddenly become lean. Now that the correct reason is known it ought to contribute a greater degree of confidence toward the stock, as with the elimination of any uncertainty, speculative nervousness can be counted upon to melt away.

**White Caps**

The figures furnished by the management of the White Caps property at Manhattan, Nevada, give the investor an insight into what the properties of that camp can earn, and indicate that for the past 18 months the company's total earnings have yielded \$101,101, the mine producing 5717 tons of ore, the gross value of which amounted to \$144,437. The loss in tailings figured slightly in excess of \$25,000, while the milling charges amounted to \$38,841. Of the total net profits the leasers obtained \$55,595. The milling ore of the company up to August, 1912, averaged \$37 per ton, but since that time, while the ore body has widened, the values have decreased proportionately in the vein, so that the average is now running between \$16 and \$20 per ton. Almost all of the early production of the property was secured through the primitive equipment, and a regular skip of a capacity of one and one-half tons has replaced the old bucket, from which all of the ore was hoisted. The output of the property has increased from 55 to 45 tons per day, and will soon be raised to 100 tons per day. This statement is important, as it is one of the very first tangible schedules of this kind which have come from the camp, giving one an idea of what developed properties in that section can accomplish once they work out the preliminary details in regard to their operation. Another interesting item in regard to Manhattan is the statement made by Fred J. Siebert, consulting engineer for George Wingfield, who intimates that the Southern Pacific railroad is one of its extensions will come within 11 miles of Manhattan, so that it seems but a question of a very short time before adequate railroad facilities will be furnished this section. This new projected line of the Southern Pacific is likely aimed at tapping the coal deposits at Coaldale which give evidence of helping to solve the fuel problem for many of the southern Nevada properties.

**TAFT SENDS MESSAGE OF SYMPATHY TO A WIDOW**

WASHINGTON, Nov. 2.—President Taft today sent the following message to Mrs. John L. Wilson, wife of the former United States senator from Washington, who died here yesterday.

"I have just received the sad news of your husband's death. I extend to you the heartfelt sympathy of Mrs. Taft and myself in your great sorrow. Senator Wilson was a warm and constant friend of mine and I deeply regret his death."

**MORE OUT-DOOR LIVING**

AND DEATH RATE WILL BE LOWERED

Statistics prove that the death rate is very much greater in the winter months than in summer, and that the lack of fresh air is largely responsible for this condition.

If the system becomes run down, blood thin and watery, circulation poor, no appetite, don't dose with drugs, but take our delicious cod liver and iron tonic Vinol, not a patent medicine, as everything in it is named on every package and if it does not give you a hearty appetite, enrich the blood and create strength, we will return your money; that shows our faith in Vinol.

A case has just come to our attention from Albany, N. Y. Mrs. H. Hartman says: "I was in a run-down condition for about five years until this spring, when I learned what a good tonic and strengthener Vinol is. It is certainly the best tonic I have ever used and it has done wonders for me."

Try a bottle of Vinol on our guarantee. Miners Drug Store, Inc., Tonopah, Nev. adv.
